Leo, Rose,

On a press call on the dicamba announcement, EPA's Alexandra Dunn stated that states will have to use Section 24(a) of FIFRA – that is, making state legislative processes and rulemaking processes – to further restrict this federal dicamba label. She said Section 24(c) will only be used for label expansions. I'm about to publish our story tonight but will go into more detail tomorrow.

Will AAPCO have a comment on that tomorrow? Rose, might you? That is a change, correct?
